

TRANSIT

International Transport Company

**INTEGRATED SOLUTION FOR
YOUR BUSINESS!**

ABOUT US

Transit is an international transport company that has been successfully operating at the market for over 17 years handling over 300,000 TEU annually.

There are 20+ ships within our fleet, the largest ICD in the Far East, rail car fleet that includes over 3,000 fitting platforms, 350+ own trucks and over 40,000 containers.

We are one of the leading transport and logistics companies in Russia and we are in the top 100 largest container line operators world-wide. The services of Transit Company represent, first of all, quality, high level service, complete safety and predictable delivery time.

SHIPPING LINE

Our own shipping line is a guarantee of high level service and prompt delivery of goods.

In June 2021 we launched our own regular marine service and registered the Container Line TRANSIT LINE. Currently our services include direct delivery from China, South Korea, Vietnam, and are constantly expanding. There are more than 20 vessels in the fleet.

In the beginning of 2022 we were included into TOP100 largest container lines chart. Our Company became a ship owner and commenced to build up its own fleet since summer 2022. We've launched deep-sea service from Asia to Saint Petersburg this year. Besides our own fleet, we use a wide feeder network to cover the main ports of South East Asia. The schedule of TRANSIT LINE is available on the website of our Company, www.transitllc.ru

REGULAR SERVICE FROM VIETNAM TO RUSSIA

Vietnam agency was established in 2022 with the launch of our own service from Hai Phong and Ho Chi Minh to Russia and China. We accept both SOCs and Transit Line's own containers for shipment.

Advantages of shipment with Transit Line from Vietnam:

- Reliable schedule
- Firm transit time
- Priority berthing at the terminals of Vladivostok without wasting anchoring time

We accept the following commodities for shipment:

- General cargo
- Dangerous goods
- Refrigerated goods
- Out of gauge cargo
- Less than container loads

REGULAR DIRECT SERVICE TO SAINT PETERSBURG FROM ASIA

Reliable schedule and firm transit time from the following ports:

Qingdao / Shanghai / Ningbo / Xiamen / Nansha
Busan
Haiphong / Ho Chi Minh City

We accept SOC & COC containers.

We accept the following commodities for shipment:

- Dangerous goods
- Out of gauge cargo in special equipment: OT, FR
- Refrigerated containers
- Flexi tanks

PROJECT CARGO

This is an integrated solution for cargo transportation, which considers the following factors: weight and size characteristics, the nature of cargo and the possibility of transportation along the route, carriage time and seasonality, temperature regime of carriage, features of customs clearance of cargo.

We guarantee reliable service.

Transit Sedanka is a unique MPP, RO-LO vessel with a deadweight of 11,281 tons and maximum draft of 7.8 m only. This vessel has a draft of only 5.8 to 6.0 m with a maximum load of equipment.

The total area of cargo space exceeds 4,600 square meters. Load capacity of the ramp is 60 tons. There is an elevator (lift capacity 40mt) connecting the tween deck and hold decks.

There are 2 cranes (61mt each) that may load up to 122mt of oversized and heavy cargoes all together.

> 60 CONTAINER BLOCK TRAINS

OWN FLEET OF CONTAINERS AND FITTING PLATFORMS

FIXED DAILY TRAIN SCHEDULE

FREIGHT FORWARDING BY ROAD: FROM WAREHOUSE TO RAILWAY STATION

CARRIAGE BY RAIL

Years of experience in railway transportation, own assets (over 3,000 fitting platforms, 40,000 containers and over 350 vehicles) which guarantees the safety of transportation all the way in accordance with the ETA. We arrange the delivery of goods for various purposes, dimensions, features, using various types of container equipment.

We offer our own block train services at the following routes:

Moscow - Vladivostok - 12 days

Novosibirsk - Vladivostok - 8 days

Yekaterinburg - Vladivostok - 10 days

**3 TIMES CHEAPER
THAN BY AIR**

**DIRECT SERVICE

DIRECT CONTAINER TRAINS FROM CHINA

We offer the service of goods delivery from China to Russia directly as a part of a container train. Transit time from the PRC station to the RF station is less than 20 days. Direct contracts with all leading railway operators and railway stations ensure favorable rates and prompt service.

LESS THAN CONTAINER LOAD(LCL)

Shipping less-than-container loads from South-East Asia on a weekly basis strictly according to the schedule without any waiting for consolidation; organization of goods delivery from a supplier's warehouse

Direct service from South East Asia ports (China including Province Taiwan, Korea, Vietnam) without transshipment in Busan, Korea.

Direct railway service from China (Ningbo, Yantian) to Moscow

We also provide Russia domestic transportation service of less-than-container loads on a daily basis.

MULTIMODAL TRANSPORTATION

Multimodal transportation is a set of services for carriage of goods by various modes of transport. Our managers create unique transport chains (combining rail, sea, air and road transportation) for the best solution, ensuring a significant reduction of delivery time for you.

Own assets help us to implement unique multimodal services from the East Asia Countries to Russia and visa-versa.

We provide a full range of logistics services in multimodal transportation. Over 40,000 containers, our own express train service (over 60 trains) and 350 trucks, many years of experience in the delivery of oversized and dangerous goods, the stability and reliability of transport departures, as well as a high level of customer service; all this makes our services as efficient as possible.

We arrange service from a customer's warehouse, optimize the route using the advantages of each transport mode, assist in customs clearance process.

**CARRIAGE OF LESS-THAN
CONTAINER LOADS**

**PICK-UP FROM A PORT
BY ROAD**

CARRIAGE BY ROAD

Own fleet of 350 trucks and light-tonnage vehicles allow us to ensure the delivery of goods in any direction and within the shortest possible way.

**CARRIAGE OF SPECIAL CARGO
(OVERSIZE MACHINES/
EQUIPMENT)**

WE PROVIDE BOOKING BY VARIOUS AIRLINES

WE DELIVER GOODS TO ANY POINT OF DESTINATION

CARRIAGE BY AIR

Air delivery is the fastest option. Due to the wide vendor network, we provide the best rates for international transportation from European countries, China including Hong Kong and Province Taiwan, Vietnam, India, Thailand, Turkey, Kazakhstan, Korea, Japan, Indonesia to Russia.

Air transportation is popular for carriage of small consignments and perishable goods.

We will prepare all required transport documentation in accordance with the requirements, and arrange customs clearance for you.

DOMESTIC RUSSIAN LESS THAN CONTAINER LOAD(LCL)

LCL cargo transportation is the most convenient and cost-efficient way to deliver small consignments, products, building materials or equipment for which it is impractical to use an individual vehicle.

We deliver various goods countrywide. All shipments are insured. We work with both corporate clients and individuals.

WAREHOUSE SERVICE

We provide a full specter of warehouse services, including all operations with goods. For the convenience of customers and improving the quality of service, we implemented a warehouse automation system – WMS.

We arrange:

- cross-docking (acceptance and shipment of goods to warehouse without further placing in a storage area)
- goods accounting
- rack and floor storing
- completing goods according to specified criteria
- repacking and marking of cargo
- preparation of warehouse and shipping documentation

**NO LIMITS ON THE VOLUME OF

**ALL WAREHOUSE SPACES MEET
STORAGE REQUIREMENTS**

**WARRANTY OF CARGO AND
GOODS SAFETY**

**CONVENIENT LOCATIONS
OF WAREHOUSES**

**HANDLING OF GOODS
AND PREPARATION FOR
CARRIAGE**

24/7 SERVICE

CARGO INSURANCE

Transportation of goods include stowage, loading, storage too. The possibility of unforeseen factors in such a situation and, correspondingly, risks is inherent in any logistics processes. It is due to a large number of various input factors that affect the processes of goods movement.

**FLEXIBLE INSURANCE
TERMS**

**INDIVIDUAL
APPROACH**

**PROPER AND CLEAR
SETTLEMENT OF
POSSIBLE LOSSES**

**CUSTOMER-ORIENTED SERVICE
ALL THE WAY**

Only risk insurance is a real guarantee of preventing (or indemnifying) any consignor's property losses. Estimation of the probability of any damage during carriage, i.e. forecasting situations of occurrence of risks (and insured events), becomes a key factor in arrangement of transportation of any type.

We provide a package of services to protect the interests of cargo owners against any accidental damage to goods during carriage.

CROSS DOCKING/ 3PL LOGISTICS

Companies increasingly need to dispatch daily their goods to retail outlets in those regions that do not have their own warehouses. We offer cross-docking services delivering goods to regional warehouses, distributing them according to orders and shipping them to retail outlets. Acting as a 3PL provider, Transit operates its own extensive fleet of vehicles and warehouses for various purposes.

Cross docking is a delivery of goods to a regional warehouse, distribution by orders and shipment to retail outlets without placing them in long-term storage.

TRANSIT UNIQUE SOFTWARE - PERSONAL ACCOUNT

A personal account contains all necessary information and documents. You can find out the status of orders at any time without waiting for a response from a manager.

Track your order 24/7

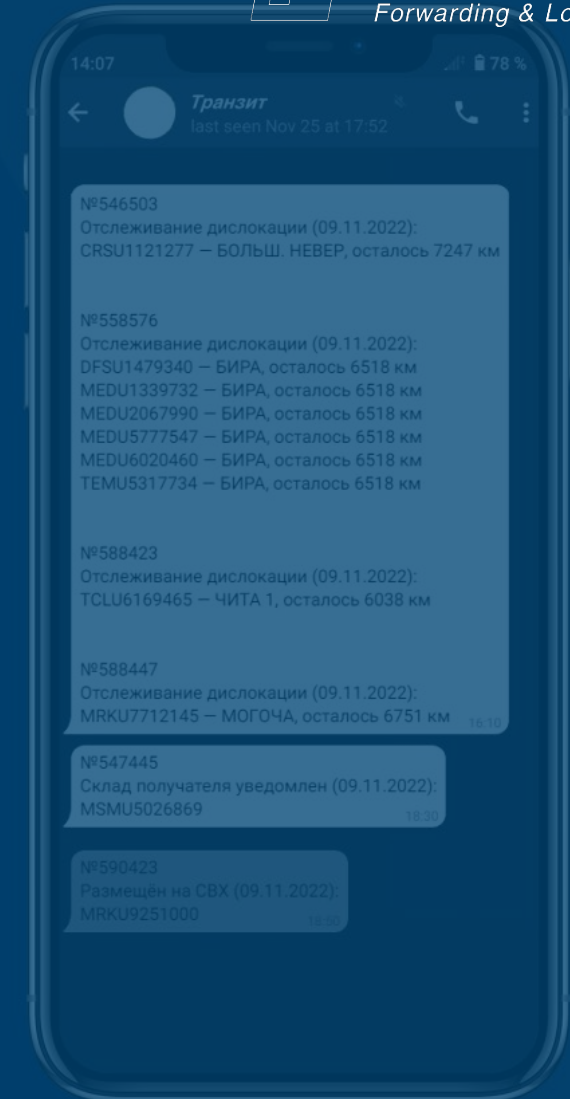

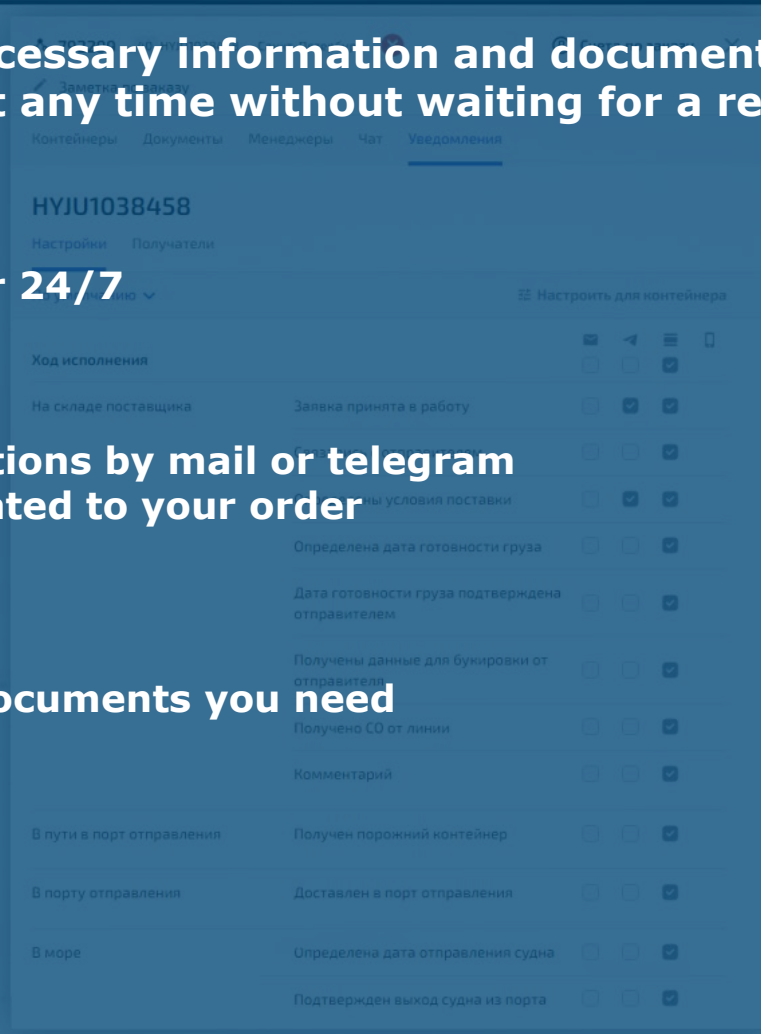

Receive notifications by mail or telegram of all events related to your order
